Objective

Aspiring software engineer with hands-on experience in full-stack web development, passionate about building scalable and user-centric applications. Looking for an opportunity to apply my technical expertise and creative problem solving abilities in a dynamic tech environment.

Experience

Software Developer Intern

kanbro Corporation

Remote

June 2025 – Present

- Contributing to the development of an ERP platform for educational institutions, focusing on student information and academic workflows.
- Implemented a calendar-based attendance feature that visualizes daily subject-wise attendance with color-coded indicators for presence/absence.
- Developed a print-friendly report card generator using `html2canvas` and `jsPDF`, allowing easy export of academic performance to PDF.
- Collaborating with backend developers to integrate RESTful APIs and ensure data consistency across attendance and reporting modules.
- Working in an Agile environment, participating in sprint meetings, feature discussions, and regular code reviews.

Subject Matter expert (SME)

Chegg India

Remote

April 2022 – Aug 2022

- Delivered a high-quality, step-by-step solution to academic question across core computer subjects including data structures, Algorithms, Operating Systems, DBMS, and Programming C,CPP,Java.
- Maintained a high accuracy and helpfulness rating by consistently providing clear, concept-driven explanations tailored to student understanding.
- Ensured adherence to academic integrity by creating original, plagiarism-free content under tight deadlines.
- Demonstrated strong problem solving and debugging skills to resolve complex coding and theoretical queries.
- Gained hands-on exposure to diverse technical topics, enhancing domain knowledge, and strengthening communication of technical concepts.

Education

ABES Engineering College, Ghaziabad

Master of Computer Applications (MCA) – 73%

July 2023 – June 2025

University of Allahabad, Prayagraj

Bachelor of Computer Applications (BCA) – 81.2%

July 2020 – June 2023

Board of High School and Intermediate Education, Uttar Pradesh

Class 12th – 72.2%

2019 – 2020

Board of High School and Intermediate Education, Uttar Pradesh

Class 10th – 79.6%

2017 – 2018

Projects

Car Rental

github.com/anshu/Repo 

- Developed a user-friendly car rental platform with ReactJs and Ant Design for seamless UI/UX.
- Built RESTful APIs using NodeJs to manage car inventory, bookings, and user authentication.
- Developed an admin dashboard for managing inventory and viewing bookings.
- Implemented MongoDB as the database to store and manage car details, bookings, and user information.
- Tools used: ReactJS, Ant Design, Node.js, Express.js, MongoDB, Redux, Stripe API.

Talk-Time

github.com/anshu/repo 

- Developed a real-time chat application enabling instant message exchange using Socket.IO for WebSocket communication.
- Integrated MongoDB for message persistence, allowing users to view their chat history.
- Built a responsive and accessible user interface with Daisy UI and Tailwind CSS, delivering a seamless cross-device experience.
- Implemented a robust backend with NodeJs and ExpressJs to manage API endpoints, WebSocket connections, and authentication.
- Tools used: ReactJS, Tailwind CSS, DaisyUI, Node.js, Express.js, Socket.IO, MongoDB.

Skills

- **Programming Languages:** JavaScript, C++, C, Java
- **Frameworks & Libraries:** ReactJS, Node.js, Express.js, Bootstrap, Tailwind CSS, DaisyUI, Socket.IO, Ant Design, Redux
- **Database Management:** MySQL, MongoDB (NoSQL)
- **Cloud Technologies:** Google Cloud Platform (GCP) – Basics
- **Tools & Platforms:** Git, GitHub, Stripe API, VS Code, Eclipse
- **Software Engineering:** Object-Oriented Programming (OOP), SDLC, STLC, Design Principles, REST API integration, Writing Test Cases, Bug Reporting
- **Operating Systems:** Windows, Linux (basic)

CERTIFICATES & ACHIEVEMENTS

Certifications:

- **Data Structures & Algorithms in C++ (Intermediate Level)** – Strengthened algorithmic thinking and coding skills.
- **UX Design Certification by Grow with Google (Coursera)** – Covered Figma, Adobe XD, user research, wireframing, and usability testing.
- **Architecting with Google Compute Engine Specialization (Coursera)** – Learned VM deployment, cloud design optimization, and GCP security best practices.

Achievements:

- Solved 350+ DSA problems on LeetCode and GeeksforGeeks – Demonstrated strong problem-solving and coding abilities.
